

The Education Department in the new academic year 2019/20

The employees of the Education Department of the Warsaw Ghetto Museum would like to invite you to participate in activities intended for teachers and pupils/students of all levels.

In the previous academic year 2018/19, the Education Department conducted several dozen workshops and lessons for around eight hundred pupils/students from Warsaw and its vicinity. It also organised a three-day conference for teachers "Around the Warsaw ghetto and other ghettos in occupied Poland". Once a month, the department runs open strolls for the public – "In the footsteps of the Warsaw ghetto".

This year, the Education Department is planning to continue conducting training courses for teachers, workshops, and educational strolls for pupils/students.
